WINTER

NEW

FIANDRE PRO 2 JACKET LONG SLEEVES

1124500

WEAR IT IN THE SUN, LOVE IT IN
THE RAIN.

The brand new Fiandre Pro 2 Jacket Short Sleeves represents the best in class when speaking about protection from rain and wind. Thanks to the Polartec® membrane this jacket is able to provide you the best performances in any winter condition. We studied the new Fiandre Pro 2 Jacket with a tight racing fit and we developed it with the least amount of exposed stitching possible in order to avoid weak points and to protect you as much as possible. Finally, the three pockets on the back are studied and constructed with gussets and draining holes to maintain all your stuff dry and safe.

- Full construction in windproof and water resistance Polartec® membrane
- 3 pockets with gussets and draining holes
- Simple construction with the least amount of exposed stitching to avoid weak points where water could leak in
- Reflex logos on front and back
- Tight racing fit

WEAR IT IN THE SUN, LOVE IT IN
THE RAIN.

The brand new Fiandre Pro 2 Jacket represents the best in class when speaking about protection from rain and wind. Thanks to the Polartec® membrane this jacket is able to provide you the best performances in any winter condition and, thank to the short sleeves, can be an optimal solution in sunny days and/or in intermediary seasons. We studied the new Fiandre Pro 2 Jacket Short Sleeves with a tight racing fit and we developed it with the least amount of exposed stitching possible in order to avoid weak points and to protect you as much as possible. Finally, the three pockets on the back are studied and constructed with gussets and draining holes to maintain all your stuff dry and safe.

FIANDRE JACKET

1123502

MAXIMUM GORE-TEX
PROTECTION FOR THE COOLEST
RIDES.

This year, the Fiandre Jacket comes with redesigned shapes and fabrics. Adopting the new GORE-TEX INFINIUM™ DWR treatment, the Fiandre Jacket is a suitable high performance garment. The fit has also been modified to make the jacket the ideal product during intense training. The use of materials treated with nanotechnologies increases its elasticity, maximizing its comfort.

- Gore-Tex® Infinium® 218gr fabric
- Peached interior for greater warmth and comfort
- Zip cover flap to provide wind protection
- WR treated back fabric

SUPERGIARA W BIBTIGHT

1123512

MAKE YOUR WINTER
GRAVEL OUTINGS HIGHLY
COMFORTABLE.

Designed for your most extreme outings, the Giara W Bibtights offer maximum comfort thanks to the DMS pad developed for the off-road position and the use of different fabrics with WR treatment in areas most exposed to bad weather and mud. The roomy side pockets with a minimal look and the magnetic clip on the shoulder straps to facilitate dressing make them practical to use on every outing.

- Side pockets with a minimalist look
- Two extra pockets at the waist
- Magnetic clip to make it easy to put on suspenders
- WR treatment on the back to increase water repellency
- Camlock® zip on the bottom of the leg with reflex flap

A merino wool sock that offers
excellent thermal insulation
in cold temperatures without
feeling too hot in milder
temperatures.

- Merino wool provides
outstanding breathability,
insulation and thermal
regulation in a wide
temperature range.

SRK W HEADBAND

1124533

THE ESSENTIAL HEADBAND
FOR ALL YOUR RIDES

The SRK Headband is a great
alternative to the SRK cap,
providing better wearability with
a pony tail or long hair in general.
The brushed fabric used ensures
maximum heat retention and is
comfortable on the skin even in
case of excessive sweat.

- Brushed stretch fabric
- Embossed logo on the side
- Raw-cut edges
